

Galleria Moon Valley .. A community passionate about art

An aerial photograph of a residential development. The image shows several clusters of modern, multi-story apartment buildings. The buildings are arranged around a central green space and are connected by a network of roads and walkways. Some buildings are labeled with letters like 'A', 'B', 'G', and 'H'. There are also some cars visible on the roads. The overall design is modern and organized.

“Art washes away from the soul the dust of everyday life”

Pablo Picasso

Galleria Moon Valley is a luxurious residential compound that has been designed with a unique architectural and services perspective.

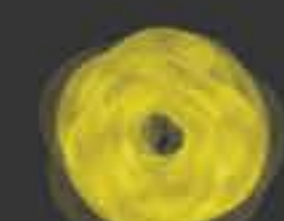

Distinguished by its concept “Live Art”, the focus is on attracting a community of residents passionate about art, appreciating of nature and beauty. Accordingly, we have created an environment that is meticulously designed to ensure that its residents, are enjoying life.

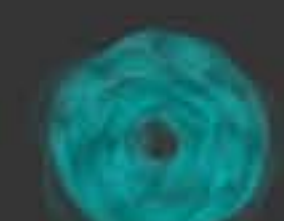

An abstract graphic located at the bottom of the page. It consists of several overlapping, curved, and layered shapes in a variety of colors including red, orange, yellow, green, blue, and purple. The shapes create a sense of depth and movement, resembling a stylized, colorful wave or a series of concentric, overlapping arcs.

The Real Estate is the best investment in Egypt...
Location is the key for the return on investment...
Galleria is promising a unique location...

Practically, at the heart of New Cairo it is minutes away from the commercial center at 90 street, AUC and the new Gezirah Sporting Club.

If it is about location... then Galleria is the investment

Galleria Moon Valley presents a completely new perspective of residential compounds

Our concept does not stop at unique architectural designs and spectacular landscapes but it also extends to embody the creation of a community passionate about art in all its elements.

A new concept for living

A luxurious residential compound in New Cairo, which utilizes architectural elements and materials that are well researched and emanate from art forms that prevailed over the years.

Security

We believe that security in real estate projects is vital and that no money or effort should be spared when designing it.

Accordingly, Galleria's maintenance company offers its residents a 24/7 state of the art security system of cameras and control rooms managed by some of the best security officers.

Passion about the arts

In naming the project "Galleria Moon Valley" we wanted to emphasize our community passion for all form of arts not just in architecture, building façade and the well-designed building interior. Our passion about art is a way of living, music is the form of art closest to the hearts of all Egyptians..

it's part of our consciousness. Accordingly we have allocated space in the community center for a children music academy. Galleria Moon Valley will host the largest art gallery in new Cairo to allow our residents to enjoy some inspiring moments while looking at the paintings and to get updated about the latest touches of art.

Nature and Landscapes

The master plan for Galleria Moon Valley divides the residences into six clusters thereby ensuring privacy as well as access to spectacular landscape that covers more than 45% of the area of the project.

The landscape has been designed for relaxation of residences offering entertainment facilities such as jogging tracks, outdoor meeting points, etc.

Library

Galleria Moon Valley's community center is designed with luxurious facilities.

We offer our residents private 3D/HD cinema halls, which they can rent for private viewings of films or matches.

We also have a state of the art "library", which can be used by the communities' youths to study and/or research.
