Introduction about

At Masman, our ambitious goal was not just to expand and proliferate, but to have a positive and lasting impact on the communities in which we operate. Our values of honesty, integrity, sincerity, perseverance, and loyalty serve as the foundation of our success and have helped us build a strong reputation in the markets.

The Masman Empire began as a family business in Yemen in 1938, and has since grown to become a pioneer in the consumer goods industry in Egypt and the Middle East and North Africa regions through the establishment of Arma Company in 1992. We continued to expand into new fields, including fabrics and personal care in 2005, and home

care services in 2009. In 2020, we launched Arma Chemical Industries Company, further solidifying our position as a leader in the industry.

Through our commitment to our values and our dedication to making a positive impact on society, Masman continues to grow and thrive in today's competitive business landscape.

WAY OF LIFE

In 2008, we proudly unveiled our inaugural residential project, situated on a vast land plot of approximately 18 feddans in New Cairo. Within this development, %20 of the area was dedicated to villas, while an expansive %60 was meticulously designed as lush landscape and green spaces. This project was a collaborative effort with Sabbour Developments,

resulting in a harmonious blend of expertise and vision. The village exudes an ambiance of warmth and closeness, creating a sense of belonging in a secure neighborhood. Here, children can freely venture out to play, surrounded by an environment that fosters safety and community spirit. Our utmost priority is to ensure the convenience and comfort of our residents,

allowing them to fully embrace the joys of home and unwind in a perfectly serene living experience. To achieve this, we have incorporated a unique Victorian design that adds a touch of character and charm, enhancing the overall quality of life in this remarkable residential community.
