

HORIZON
Development

horizondevelopment.co

Horizon adopts its vision to revive the cultural, intellectual and artistic heritage, hereafter modernize and integrate them into life through the construction of integrated urban and commercial cities and neighbourhoods that support a sophisticated lifestyle. It supports and promotes the approach of communicational and cultural exchange among nations through arts, literature, integral tourism and trade.

All of this under the crucible of recreational Arts that enjoy a vast diversity nowadays and cultivate rapidly. The arts meet to present themselves to the public through a variety of commercial leisure centres, where we have created an integrated vision for them to incorporate Arts into everyday life and developed them to become not only commercial centres, but also to include the entire neighbourhoods and cities that are designed to be more vibrant, modern and occupied with selective commercial activities that support the ideological and cultural identity.

Wherever our ship anchors, we will create cities that are environmentally friendly and human friendly.

HORIZON

Mission

We rebuild the cultural heritage industry in its new modern concept of contemporary cultural cities and neighbourhoods supporting a sophisticated lifestyle that makes a better human and lets the successive generations enjoy a decent life.

Choice of Projects Locations

- . Coastal Cities – if possible,
- . A geographical climate closer to moderation throughout the year.
- . A cultural and intellectual identity suitable to apply the idea.
- . A quantitative and qualitative population growth rate.
- . A stable political climate .
- . Qualifications for tourism attraction.

The Philosophy of Projects Foundation

- . Provide a civilized development of societies through the modernisation or development of cultural heritage.
- . Innovate environmentally friendly cities and neighbourhoods.
- . Offer an honest and sophisticated lifestyle.
- . Support creativity and innovators .
- . Provide innovative and relevant job opportunities for all.

HORIZON PARTNER

Eng . Adnan Saffarini Office

Architects & Engineering Consultants

Engineer Adnan Saffarini Office (EAS) currently is one of the most famous and largest offices of its kind in the region as a reputed Architects & Engineering Consultants Company with more than 600 of highly qualified staff.

EAS office was found in Dubai, UAE in 1968s as an Architectural and Engineering Office. It was then expanded to serve a wide range of clients over UAE and other countries in the region. Beside Dubai Head Office, there are seven branches in UAE, Jordan (Amman), Kuwait, Qatar, KSA, Kenya and Tajikistan. In seeking to provide our clients with best services, we keep on improving and training our staff to comply with high standard in order to follow up the development in the current technology.

With creative minded and highly qualified staff, EAS is designing and supervising projects in all over UAE and other parts of the world. EAS experience covers variety of projects like towers, commercial and residential buildings, healthcare, universities, schools, embassies, villas, shopping malls, warehouses, Mosques ...etc.

EAS services have been crowned with endorsing one of our Towers "Princess Tower" at Dubai Marina in Guinness World Record as the tallest residential Tower in all over the world. EAS has been recently chosen by Middle East Architect magazine as the third best office in the gulf region.
