Jawad Developments CEO

Word
From the CEO

Dr. *Adel Abdel Jawad*

As the CEO of Jawad Developments, I am proud to lead a company driven by passion, excellence, and a genuine desire to make a difference. With our dedicated team and strategic collaborations, we are confident in our ability to create remarkable projects that will shape the future of the Egyptian real estate landscape. We look forward to building a prosperous future together.

We understand that real estate development is not just about constructing buildings; it is about creating spaces where people can thrive, connect, and build memories. That is why our projects are thoughtfully designed to incorporate modern amenities, green spaces, and community-centric facilities. We believe that vibrant and sustainable communities are the backbone of a thriving society, and we are committed to making a positive impact on the lives of our residents and stakeholders.

One of our core strengths lies in our ability to forge strategic collaborations with industry leaders. Our partnerships with leading figures in the industry allows us to bring together a wealth of knowledge and expertise. This ensures that our projects are executed with the utmost precision, efficiency, and attention to detail.

About *Us*

Since its inception in November 2022, Jawad Developments has been contributing to the development of urban communities in the 6th of October City.

In May 2023, we launched our first project, surpassing all industry standards and making a real impact in the real estate market.

Jawad Developments is a collaborative venture between two main partners: Mr. Adel Atef Abdelgawad, a prominent figure in the import and export industry, and Eng Sami, the owner of a highly regarded construction company that was previously based in Qatar. This partnership allows us to leverage the combined expertise in both business and construction, enabling us to deliver projects of the highest caliber in terms of speed, quality, and community development.

Mr. Adel Atef Abdelgawad's extensive experience and success in the import and export sector bring valuable insights into market trends, customer preferences, and effective project management. His business acumen ensures that our projects not only meet but exceed industry standards, offering exceptional value to our clients and stakeholders.
