Disclaimer: All plans, layouts, drawings, images, dimensions, areas, and information provided herein are indicative and used for illustrative purposes only and are intended to convey the general concept and vision for JUNCTION Project. They do not necessarily represent a true and accurate depiction of the final product.

An architectural rendering of a modern, multi-story building complex with extensive glass facades. The building features a central corner section and two wings extending to the left and right. The ground floor is dark, with 'CAFFE DU LAT' signage visible on the corner. The upper floors are filled with glass, reflecting the sky and showing interior details. The building is surrounded by a paved plaza with a geometric tile pattern. There are landscaped areas with trees, shrubs, and flower beds. Several people are walking and standing in the plaza, giving a sense of scale and activity. A large, abstract sculpture is visible in the center of the plaza. The sky is clear and blue.

Thank You!
