

SAHEL PROJECT DIRECTORY

Egypt North Coast — Structured Compound Database 2026
28 of 86 projects compiled so far

This directory consolidates publicly available, verifiable information for each compound on the Nawy Sahel Map — developer, land area, unit types, master-plan highlights, delivery status, and any publicly reported pricing.

What this directory does NOT include: official developer master-plan drawings, current live price lists, or exact payment/installment schedules. These change frequently, are not reliably published, and are proprietary developer sales material — for those, contact the developer directly or use the Nawy app/website as the map itself recommends.

Built in batches, area by area, from Sidi Heneish (Alexandria) toward New Alamein.

SIDI HENEISH

240 km – 273 km from Alexandria

Alam Al Roum

Distance from Alexandria: 275 km

Developer	Qatari Diar / NUCA (Egypt–Qatar joint venture, Al Diar Developments)
Total Land Area	~20.2 sq km (~4,900 acres / 1,985 hectares)
Beachfront	~7.2 km
Unit Types	Townhouses, hotel apartments, standalone villas
Master Plan Highlights	Self-contained coastal city concept: ~60% residential zones, ~25% green/commercial open space, international marina, golf courses, man-made lakes, desalination & utility networks, schools/hospitals integrated.
Status / Delivery	Newly announced 2025–2026; first phase targeted within 5 years of the 2026 ministerial decree, full build-out planned over ~15 years.
Pricing & Payment Notes	Not yet publicly listed – still pre-launch/early phase.
